3 Courses

Golang: Foundations and Variables

Golang: Logic Flow and Data Collections

Golang: Functions, Pointers and System Design

Jul 3, 2026

Mumshad Mannambeth

Omar Ahmed Abd ElHameed Dardir Seif

has successfully completed the online Specialization

Mumshad Mannambeth, Founder & CEO at KodeKloud

GO Programming Mastery

This certificate demonstrates your job readiness and can be shared with your professional network. Throughout this specialization, you've engaged with instructional videos, hands-on labs, assessments, and AI-guided role-plays, gaining a solid understanding of Go programming, including: core syntax, data types, variables, and control flow; high-performance data collections using Arrays, Slices, and Maps; and production-ready system design with pointer-based memory management, modular functions, and interface-driven architectural patterns.

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
